Subject: Jeff Hanna Recommendation Letter

To Whom It May Concern:

I have had the fortunate opportunity to work with Jeff Hanna for the last eight years. I have probably worked with Jeff in game development longer than any other individual. The past two years he has been my direct supervisor. I willing write this letter because I feel that Jeff's strong work ethic, supportive attitude, and team synergy has been a positive impact on all around him. He will contribute to any team he is on.

Jeff is extremely technically proficient and applies that proficiency to solve problems. For instance, Jeff wrote several scripts to help shore up our art production pipeline at Lodestone Games. Jeff also wrote all of the scripts for the particle effects in our games. This technical expertise bridged the gap between our artists and the programmers. Jeff's attitude was that he wanted to do the things that would help others perform their roles and he accomplished that in stellar fashion. Because of his coding ability, knowledge of art production tools and his problem solving ability, Jeff is well equipped to handle technical workflow issues.

As my supervisor Jeff was extremely supportive and he was protective of his team's interests. Jeff is pleasant to work, communicates well, and no matter how busy he is, always has time to discuss issues with others. I would fully recommend Jeff for a position where could apply the many strong skills mentioned above.

Sincerely,

Greg Grimsby  
Lead Artist  
Lodestone Games, LLC
